

AMATURE RADIO COMMUNICATION TEAM

CQ CQ CQ Calling together the Amateur Radio Communication Team,
ACT for short,
This is (Name, Call) I will be your host for this Ragchew Net.

Before I go any further is there any station out there that needs this
frequency for Emergency or Priority Traffic?

This net meets on Thursday evenings at 2000 hrs using the W2DQ
repeater.

To log into this net simply say THIS IS then release your PPT to see if you
are doubling with anyone. Then slowly give your call sign, Your Name,
location and say Info or a Query if you have anything for this net.

First I will take regular net check-ins and then echolink logins. I will now take
regular net check-ins. Remember slowly so I can write them down.

Conclusion: This is (Name, Call) closing this net at (time). I will now return
the repeater to its normal amateur radio use.
